

## GVRL Publishing Partners – September 2007

### About Gale Virtual Reference Library

Gale Virtual Reference Library's unprecedented searchability empowers users to search a single eBook or your whole collection.

Online searchability makes often-requested titles available to multiple users — and not just during business hours. Your library users can link to reference content through your OPAC or directly from the Table of Contents or Index page of a specific eBook when you provide remote access.

You're offering unlimited circulation of your reference collection with no checkout requirements and no turnaways. And cross-title searches mean faster, more comprehensive results.

For product information, visit Cengage Learning GVRL's website at <http://gale.cengage.com/gvrl>

### Single access to prestigious publishers

If you're known by the company you keep, Gale Virtual Reference Library's reputation is unquestionably solid. Our publishing partners were carefully selected based on their ability to deliver the quality, currency and integrity that you've come to expect from Cengage Learning Gale products. This unique arrangement allows users to see content from multiple publishers on one site, avoiding the silo effect created when each publisher sells from its own platform. Now, available eBooks from our partners are cross-searchable through Gale Virtual Reference Library.

Publishing partners include:
