## International Bibliography of Periodical Literature in the Humanities and Social Sciences

For over a hundred years now, the IBZ bibliography has been the leading international and interdisciplinary reference work documenting academic periodical literature in the humanities, social sciences and related fields. It covers an unrivalled spectrum of subjects with academic journals from more fields than any other database. The IBZ thus facilitates an interdisciplinary approach to research. It focuses mainly on European periodicals: publications from 40 countries published in more than 40 languages.

- 48% appear in English
- 39% in German
- 6% in French
- 7% in other languages

The database IBZ now lists over 2.5 million journal articles. Every year some 120,000 entries from 6,000 periodicals are added. Each entry includes the following information:

- Title of article
- Author
- Journal (title, year of publication, volume, issue and page number)
- Languages of article and abstracts
- Subject heading and reference in German and English
- Classification of the article and the journal
- Publisher, address (only CD-ROM ed.)

A list of all journals covered is available at:

## International Bibliography of Book Reviews of Scholarly Literature in the Humanities and Social Sciences

Reviews are an important aspect of scholarly discussion, helping to filter the relevant works out of the yearly flood of publications, and thus influencing the reception of scholarly works. The IBR, published since 1971, is a unique source of bibliographical information with a database containing entries on over 1 million book reviews published in 6,000, mainly European scholarly journals. Reviews of over 650,000 scholarly works are listed and at least 60,000 entries are added every year.

- 59% of the reviews are in English
- 30% are in German
- 6% in French and
- 5% are in other languages

Each entry contains the following information:

- On the work reviewed: author, title (in some cases additional information)
- On the review: reviewer, periodical (year of publication, volume, issue, pages, ISSN), language of article, classification (in German, English, Italian)
- Place of publication, publisher's address

A list of all journals covered is available at: [http://www.saur.de/\\_download/quellenlisten/0000010140.pdf](http://www.saur.de/_download/quellenlisten/0000010140.pdf)

## International Bibliography of Congress

The IJBK provides a current overview of contributions to a whole range of scientific and scholarly congresses. Besides covering the humanities and social sciences, emphasis is also placed on other scientific fields, such as mathematics and the life sciences. Using the numerous combinable search criteria, the user can make accurate searches, not only for current articles from a vast range of fields, but also for contributions from past years. The database IJBK records over 930,000 indexed articles from more than 30,000 mainly European congress proceedings, from 1984 on. Approximately 1,000 new congress proceedings are added each year.

Each bibliographic entry contains the following information:

- Author
- Title of the contribution
- Congress (place, date, publisher)
- Classification and Subject Heading (in German, English and Italian)

The congress proceedings are written in several languages:

- 78% in English
- 17% in German
- the remaining 5% in 33 other languages

More details available on request.

Festschriften are a popular forum for discussion, particularly in the humanities and social science. The IJBF provides scholars and students with quick and easy general access to these important resources. The festschriften are located in state and regional libraries and their bibliographic details are recorded in the IJBF database.

The IJBF is the only regularly published, truly international festschrift bibliography, covering 20,000 entries from over 1,000 festschriften per year, from 20 countries. About 12,000 entries have been indexed by the editors using a system of subject terms.

Since 1983 500,000 essays from more than 23,500 Festschriften have been collected.

Entries contain the following information:

- Honoree
- Title
- Author
- Subject Heading (in German and English)
- Classification (in German, English, and Italian)
- Festschrift (title, place of publication, publisher, year of publication, number of pages)

## Articoli italiani di periodici accademici

### Database of titles from Italian periodicals in the fields of humanities and social sciences

»Articoli Italiani di Periodici Accademici (AIDA) is, in a word, meraviglioso!...« (Library Journal)

The bibliography AIDA contains more than 143,000 articles from 1,000 Italian humanities periodicals. Over 16,000 entries are added each year. Publications from the entire spectrum of the humanities are covered, including peripheral disciplines. The collaboration of Italian librarians ensures that the journals evaluated provide a representative selection of the current literature in the humanities and all related fields. The titles of articles are sorted and compiled by an Italian-speaking editor. AIDA is therefore an ideal supplement to the IBZ. Every entry includes the following information:

- Author, Title
- Classification (in German, English, Italian)
- Codes of the Italian union catalogue and the Italian catalogue of journals, holdings locations of Italian libraries (only on CD-ROM edition).

A list of all journals covered is available at:
